

Conrad Christensen

WORK EXPERIENCE

JUNE 2019 – PRESENT

Rockerbox

Data Pipeline Engineer

Rockerbox is an advertisement attribution company, tracking every interaction with our clients webpages and receiving webhooks for tracking additional advertisement touch points. This means that we are receiving immense amounts of data on a daily basis, and my responsibilities are in managing these huge data pipelines. At Rockerbox I have gained experience with `nginx`, `Kafka`, `Cassandra`, `Spark`, `Scala`, `Akka`, and many more tools and design patterns needed for extremely high volume data management.

SEPTEMBER 2017 – JUNE 2019

New York University

Research Assistant

Experience contributing and leading research projects in the area of machine learning systems, and systems application of machine learning. Projects include automatic optimization of distributed neural network computation, and learned concurrency control for DBMS.

JANUARY 2018 – DECEMBER 2018

New York University

Teaching Assistant, Grader

Teaching recitation, grading, holding office hours, and creation of lab material. Development of automated grading tool: automatically pulls assignments from GitHub, grades them, and pushes grades back to student repositories.

SEPTEMBER 2015 – JUNE 2016

Colorado State University

Undergraduate Research Assistant

In collaboration with the Department of Homeland Security, the Distributed Systems Group worked to create real-time exploration of large scale epidemiological data. Using machine learning techniques and distribution of large data workloads we worked to create a tool for a user friendly exploration of “what-if” questions in agricultural disease spread data.

SUMMER 2015 AND 2016

Northrop Grumman and Colorado State University

Summer Camp Instructor (multiple)

During my summers at Colorado State University I created curriculum and instructed at the MACS Summer Camp (Nation Science Foundation) and the Northrop Grumman STEM/Cybersecurity summer camp.

430 E 63rd Street #12G

New York, NY 10065

(507) 213-8976

EDUCATION

2017 – PRES. **Computer Science, M.S.**

4.0 GPA

New York University

2014 – 2017 **Computer Science, B.S.**

3.82 GPA (4.0 IN CS)

Colorado State Univeristy

NOTABLE COURSES

GRADUATE Honors Algorithms,
Distributed Systems,
Advanced Database Topics,
Deep Learning

UNDERGRADUATE Algorithms, Compiler
Construction, Big Data,
Distributed Systems,
Machine Learning

TEACHING EXPERIENCE

2018 **Basic Algorithms**
New York University

2018, 2015 **Computer Systems
Organization**
New York University, Colorado
State University

TECHNICAL SKILLS

LANGUAGES Python2/3, Java, Scala, C++, Go,
C, Bash, JavaScript

LIBRARIES Tensorflow, MXNet, PyTorch,
D3js, OpenCV, Boost

TOOLS, OS `nginx`, `Kafka`, `Cassandra`, `Kafka`,
`Akka`, `git`, `GitHub`, `gcc`, `LaTeX`,
GNU/Linux, OS X, NVIDIA NGC,
Amazon AWS

PERSONAL

My primary interests in computer science include machine learning, distributed and database systems. More personally I am interested in computational complexity, computability, and other theoretical topics.
